

After more than half a year of supposed ceasefire in Gaza, it is clear to the Palestine Solidarity community that the Ceasefire is a farce and the Israeli genocide in Gaza continues. The mainstream narrative is that the Gaza situation has been solved (or is on the way to being solved) by the ceasefire (aka the Gaza Peace Plan). Many conversations with the public have become very challenging as a result of the fundamental misunderstanding of the situation in Gaza.

At North Shore For Palestine, we decided that to make some materials to address this misconception, and to share them with others, resulting in this toolkit. You will notice that the printed materials include a link that readers can use to visit a web-page that contains a full version of the materials, and even includes links to the sources used for the materials, and also lets visitors download this toolkit so they can run their own campaign, or if they want to make changes.

Note, the purpose of the materials in this toolkit is to provide the public with a new point of view. It is not intended to be a rigorous analysis of the situation that will stand up to rigorous legal or scholarly cross-examination. We use wikipedia as a source. Some statements are based on inferences that cannot be fully backed up.

The files in this toolkit are organised into folders by format. In each folder there is an Info file with further description.

If you would like to give feedback on this toolkit, or even better, if you would like to contribute to efforts in making similar toolkits, please join the “Palestine Poster Brigade” Whatsapp chat group:
